PROFILE

- I am a Mathematics major at IISER Bhopal. Currently. The goal is to develop a rigorous approach to mathematics while working on my proof writing, broader math communication, and understanding new concepts.

EDUCATION

- BS-MS**
Natural Sciences
CPI: 8.78/10
2023 - Present
Bhopal, India
- Higher Secondary / +2**
CM International School, Pune
Percentage: 76.00
2023
- Secondary**
DAV Public School, Aundh, Pune
Percentage: 89.98
2021

PROJECTS

- Linear Ordinary Differential Equations**
Guide: Prof. Sombuddha Bhattacharyya
Started with ODEs and examples, followed by learning about Equilibrium points and how to categorise them. Looked at Linear Systems in $\mathbb{R}^2$, and ended it with looking at different types of Stability.
Feb 2024 - Apr 2024
- IISERB Summer Internship: Non-Linear Ordinary Differential Equations and Metric Spaces**
Guide: Prof. Sombuddha Bhattacharyya
Started with learning about the Linearization of Non-Linear ODEs, learned about Liapunov Stability, and then looked at the categorisation of Equilibrium points of Non-Linear ODEs, and applied it to Gradient and Hamiltonian systems. Towards the end, I looked at Metric Spaces and their examples, and learned about Completeness.
May 2024 - July 2024
- Ramanujan Club: Approximation Theory**
Guide: Prof. Prahlad Vaidyanathan
Revised concepts from Metric Spaces, Learned more about Normed Linear Spaces, Banach Spaces, and looked at examples like Finite Dimensional, Sequence Spaces, and Function Spaces, followed by learning about compactness and looking at Korovkin's Theorem and its corollary.
Dec 2024 - Mar 2025
- IISERB Summer Internship: Introduction to Functional Analysis**
Guide: Prof. Angshuman Bhattacharyya
Followed the book, Elementary Functional Analysis by Barbara MacCluer, and worked in a group of 7 students, conducting daily discussions. Learned about Hilbert spaces, basics of operator theory, Hahn-Banach Theorem, Principle of Uniform Boundedness and Closed graph theorem, concluded at Spectral Theorem for Self-adjoint and compact operators.
May 2025 - July 2025
- Winter Project at IISER Pune: C*-Algebra and Banach Algebra**
Guide: Prof. Haripada Sau
Followed the book, Elementary Functional Analysis by Barbara MacCluer, introduced to C*-Algebra and Banach Algebra, studied the algebraic structure on Hilbert/Banach spaces, studied Weak and Weak*-Topologies, concluded with Gelfand Transform, and learned about Stone-Weierstrass Theorem.
Dec 2025

ACHIEVEMENTS / AWARDS

- Madhava Math Competition**
 Selected for a Nurture camp based on performance in the examination. Jan 2024
- Meritorious Award**
 SCUDEM IX 2024 issued by SIMIODE Problem A: Sweet Tooth and Heavy Metal Dec 2024
- National Finalist**
 Inter Varsity British Parliamentary Debate under the AtharvRanbhoomi at IIM Indore Oct 2023
- 2nd position**
 Saturday Night Quizzing League 1.0. at IISER Bhopal Feb 2024
- 3rd position**
 Saturday Night Quizzing League 2.0. at IISER Bhopal Apr 2025

POSITIONS OF RESPONSIBILITY

- Coordinator**
 Debating Society, IISER Bhopal: Trained to participate in the National-level Debate Tournaments and helped to foster a similar culture at IISERB. Aug 2025 - Jan 2026
- Chrysalis Chief Editor and Coordinator**
 Chrysalis - IISER Bhopal’s SciComm Body, earlier was a part of the writing and editing team. Feb 2026 - Present
- Movie Club Core Committee Member**
 IISERB Movie Club: Assisted in movie screening and provided content for social media. Sept 2024 - Nov 2025
- Math Club Core Committee Member**
 IISERB Math Club: Content writer, Social Media and Podcast team, and helped in conducting a week long Math Fest, "Continuum" at IISER Bhopal. July 2024 - Present

WORKSHOPS AND CONFERENCES

- Madhava Nurture Camp Summer School at St. Xavier’s College, Ahmadabad**
 Organized by Bhaskaracharya Pratishthana, Pune, and Homi Bhabha Centre for Science Education, T.I.F.R., Mumbai, funded by the National Board for Higher Mathematics June 2024
